INTRODUCTION

This book has been written to be used as a basic "How To Go" guide by new drivers in the Boston Taxi Industry and a reminder to all veteran drivers that knowledge is of the utmost importance while transporting passengers, for meeting the expectations and needs of the passengers is the ultimate goal of the professional taxicab driver.

After listening to many drivers it was felt by those who worked on the book that a real need for a source of information beyond directions to various cities and towns was extremely important. To compete today, all drivers must be knowledgeable about the full scope of their job.

You will meet many people with various transportation needs and as a specialized group, in a unique profession, you can demonstrate the value of your job by having good information at your fingertips, and know how to get to many places quickly and safely.

Good service means repeat business, and passengers must feel that they are valued customers. If they believe that service is inadequate you will lose them.

As we enter the 90's it should be every drivers goal to provide quality taxicab service, for the importance of the Boston Taxi Industry is every owner's and driver's concern, and all should strive to be the best.

The standard of professionalism encompasses many things, and among the most important are:

1. Always know where you are going. Learn the city and surrounding communities.
2. Be courteous to your passengers. When safety allows open doors for your passengers, always be polite, and drive safely.
3. Communicate with passengers. Taxicab drivers have a wealth of information that many passengers seek. One writer recently wrote that cab drivers were so knowledgeable, witty and natural travel journalists that he wished they could do his writing.
4. Cleanliness and appearance. The appearance of the driver and vehicle can immediately put a prospective passenger at ease. Adhere to the proper dress code and keep the taxicab clean and it should pay off. Boston is becoming an international city and we should show foreign travelers we are the best.

HISTORY OF LANDMARKS

BOSTON

Since 1630, Boston has evolved into an international city, and center of finance, trade, culture, the arts, medicine and education.

Boston's history is an integral part of what makes this an exciting and interesting city.

Beside the historic sites, its cultural institutions such as the Boston Symphony Orchestra, The Boston Pops, the Museum of Fine Arts, The Museum of Science are among the world-renowned treasures that keep visitors coming back.

Rarely does one find so much in a city. Be proud of it and learn as much as you can to make it a fond memory for you and visitors.

Boston was named after the English Town of Boston in Lincolnshire, England.

Listed below are some locations that should be of interest to visitors:

BOSTON COMMON

The land, 50 acres, was owned by Rev. William Blackstone, it was given to him by the King of England. He sold it to the puritans for 30 pounds and Blackstone's property became common property.

It is the oldest public park in the world and the 1st Governor of the Colony, Governor Winthrop set the land aside as a grazing place for cows and as a training area for the soldiers.

The first football game in America was played here.

BOSTON PUBLIC LIBRARY

The library, at Copley Square, was opened to the public in 1895.

However, when it first opened as the first free municipal library in the United States in 1854 it was located on Mason St. In 1858 it moved to Boylston St. (The Colonial Theatre site).

BUNKER HILL MONUMENT

The monument was started in 1825, fifty years after the famous battle on June 17, 1775. It was built in memory of those "Americans" who fought and died in that battle.

The cornerstone was laid by Lafayette in 1825, but the monument was not completed until 1843, because a railroad had to be built from Quincy to the site to transport the granite.

The monument is 221 feet high, and has a 294 step spiral staircase to its top.

HISTORY OF LANDMARKS

FANEUIL HALL

Built in 1742 and given to the city by Peter Faneuil. It was named "The Cradle of Liberty" by John Adams.

It is the home of the Ancient and Honorable Artillery Company, the oldest military organization in America which was founded in 1638. Members fought in all of the battles of the American Revolution.

Four members of the Ancient & Honorable became Presidents — Monroe, Arthur, Coolidge and Kennedy.

GRANARY BURYING GROUND

So named because it was located next to a 2400 square foot barn, used to store Grain.

The cemetery is the resting place of John Hancock, Samuel Adams, Paul Revere, Benjamin Franklin's parents (Large Monument), Peter Faneuil, John Phillips (1st Mayor of Boston), Mary Goose (Mother Goose) and many local residents of the times.

KING'S CHAPEL

Completed in 1754, it was the first Anglican Church in Boston. Here is the oldest graveyard in Boston and buried here are William Dowes, Capt. Robert Keayne, 1st commander of the Ancient and Honorable Artillery, Governor John Winthrop, and Elizabeth Pain (who was suppose to be Hawthorne's heroine depicted as Hester Prynne in "Scarlet Letter").

JOHN HANCOCK TOWER

The tower was completed in 1976. It is 60 stories and is 790 feet high. It is the tallest building in New England and has 10,434 panes of glass.

OLD CITY HALL

The building of French design is on School St. and was built during the civil war (1862). It was designed by Gridley Bryant who also designed Boston City Hospital.

The bronze statutes in front of the building are of Josiah Quincy (5 time mayor of Boston), and Benjamin Franklin.

Tablets on the bottom of Franklin's statute show him (1) working as a printer, (2) signing The Declaration of Independence (3) Signing a Treaty with France (4) experimenting with electricity.

HISTORY OF LANDMARKS

OLD IRONSIDES

The U.S. Constitution was built between 1794 and 1797. It had its maiden voyage on July 2, 1798.

The frigate is noted for its many battles during the 1800's and never lost a battle. The most famous battles occurred in the war of 1812.

In 1828 she was declared unworthy and was scheduled to be decommissioned. The decision created national protest which prompted Oliver Wendall Holmes to write "Old Ironsides".

The protest worked, and "Old Ironsides" is the oldest commissioned ship in the U.S. Navy.

OLD SOUTH CHURCH

(Corner of Washington & Milk Sts.)

Built in 1729, it was the site of some of the most important town meetings in the City of Boston before the Revolutionary War.

It was from this church that the Boston Tea Party was launched. After the tea was dumped on 12-16-1773 the English Parliament passed the Port Act which closed all shipping to Boston.

At the news of the closing of the Port of Boston, people from Maine to Georgia, sent food & supplies and the Virginia Legislature called for the first Continental Congress. Sam and John Adams represented Massachusetts.

OLD STATE HOUSE

(Washington & State Sts.)

It is considered the most beautiful church in Boston.
